To: **Collage of Health Sciences**  
**College of Natural and Computational Sciences**  
Addis Ababa

Subject: **Invitation of Graduate students for sponsoring MSc Work**

The Ethiopian public Health institute mandated to improve the health of the Ethiopians through undertaking problem solving research on priority health problems of the country. One of the research area is the development of Traditional medicine. The institute would like to invite post graduate students who have interest to do research on Ethiopian traditional medicine on competitive basis.

Proposed research thematic area:

1. Sub-chronic/chronic toxicity studies promising medicinal plants
2. Standardization and quality control of promising medicinal plants
3. Formulation development from medicinal plants
4. Ethnobotanical study of Medicinal plants/Traditional medicine

Applicants are invited to apply for the Traditional and Modern Medicine Research Directorate by submitting application letter, grade student copy, curriculum vitae and recommendation letter from the department/Research Office until November 30/2017.

With kind regards,

CC/:

- Deputy Director General
- Traditional & Modern Medicine Research Directorate
